Reasons for Allowance

1. Claims 1-3 are allowed.
2. The following is an examiner's statement of reasons for allowance:

While Hayashi (Patent No. 5,555,225) discloses a microcomputer with a clock generating circuit outputting a pulse and a frequency divider which divides the frequency of an oscillating voltage outputted through the clock output terminal of the clock generating circuit and inputs the divided frequency to the CPU for determining whether to request a stop order from a memory which result in stopping the clock generator section of the microprocessor.

And Gupta (Patent No. 5,996,083) teaches a microprocessor for controlling the rate of execution to improve power management facilities. The microprocessor includes a power control register that includes a pluralities of fields for individually controlling the power consumption of the individual functional units within the microprocessor.

Neither of these references taken either alone or in combination discloses a programmable controller for controlling a controlled apparatus by pulse output having all the claimed features of applicant's instant invention, specifically including: a pulse dividing section for dividing the pulse string output from said pulse generating section at a predetermined dividing ratio and for outputting an interruption request signal having a cycle which is n times as great as the cycle of the pulse string where n is a positive integer, wherein the pulse dividing section determines the interruption request signal based on the dividing of the pulse string output. Furthermore, in response to the interruption request signal output from said pulse dividing section, a CPU for executing an interruption processing so as to directly control the output of said pulse generating section. Also, there is no motivation to combine the Hayashi

reference with the Gupta reference to meet these limitations. It is for these reasons that applicant's invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
